

Datawatch Systems EMERGENCY NOTIFICATION SYSTEM

CRISIS MANAGEMENT & DISASTER RECOVERY

In the event of an emergency the system immediately notifies all tenants, employees and vendors, and provides instructions during an on-going threat.

In addition, Datawatch Systems tracks responses in a database that clients can also access to determine the status of employees during emergencies.

BENEFITS & ADVANTAGES

Send Communication

Two-way communication with your entire contact database, occupants of a single building, or with specific groups (such as managers, tenants or vendors).

Track Communication

Datawatch tracks all replies and keeps a list of who has not yet responded to each message.

Convenient

Send pre-scripted messages, or compose messages in real time, for any event.

Customize

Match the dashboard to the look of your company's web presence.

Easily Accessible

Send messages at the touch of a button through the app, web portal, or have Datawatch's 24/7/365 staff do it for you.

Secure

Dedicated client services representatives at Datawatch will ensure your database stays up-to-date.

Integrated Solutions

System can be integrated with existing Datawatch services.

Stand Alone System

System can be installed even if Datawatch does not provide access control to your building.

Contact us today to receive uncompromising quality of service.
