

Video is an integral part of modern security solutions, providing real time surveillance and the ability to investigate incidents through analysis of recorded footage.

VideoWatch® is an easy and affordable video management solution and a perfect match for any business requiring simplified methods of incorporating video capabilities into their existing business operations.

FEATURES & BENEFITS

- Compatible with over 100 different camera brands and integrates both IP and analog.
- Up to 90 days of cloud-based video stored at secure off-site data center and the ability to stream all or specific cameras.
- Access video from any location or device using the following interfaces:
 - View control program for advanced features.
 - Web portal for remote access via a computer.
 - Mobile app for viewing from a smart device.
- No limit to the number of cameras and additional cameras can be added at any time.
- Monitor the status of your devices with alerts.
- Search for video by time or motion.
- Export video clips and snapshots.
- Bookmark times for easy future reference.
- Control PTZ cameras remotely from your computer, tablet or phone.
